William Griswold, 28 a married man and farmer, living near Menerva, Ky., eloped yesterday with Miss Francis Jerry, who were in hot pursuit of an eloping couple.

The girl's brother organized a party and came after them in hot pursuit. Griswold left a wife and two children, and his neighbors will take summary vengeance on him if captured.

The girl wore a striped dress, brown hat with black cloak. She is good looking and remarkably well developed for her age.

The Minerva populace is highly excited and threaten violence to Griswold if they can lay hands on him.

A PECULIAR CASE.

A Man with a Fractured Skull Gave Ten Days Without Knowing It.

A local appeared in yesterday's LEDGER regarding an operation performed upon Warner, colored, of Washington by Dr. C. C. Owens.

Since the paper was published other facts regarding the case were brought to the reporter which makes the case indeed a most wonderful one.

On the 15th inst. Warner, in company with Walker Reed, was out having a time and had a few drinks.

In the excitement he struck Warner over the head with a small sack containing a half pint bottle of whisky.

At the time it happened only the skull was fractured, and nothing was thought of the matter at all.

It didn't seem to pain him, and he has been going along doing his work as usual, never dreaming that he had a fractured skull until Wednesday, when a blood vessel near the place where he was struck broke and the blood began flowing forth.

Then it was that Dr. Owens was sent for and made an examination, and imagine his surprise when he found the skull fractured.

With all medical skill the physician set about to relieve the dangerously injured man.

He trephined the skull, taking out a small section, and caught the flowing blood vessel and tied it with a string.

The operation was a most unique piece of surgery, and reflected much credit upon the popular young physician.

The reputation of the physician was increased to the tenth of what it was before.

At the time of the accident he was in a very feeble condition, and will hardly survive.

HERE'S A GOOD ONE.

Y. M. C. A. Man Peeps at Pretty Girls—Their Narrow Escape.

A special from Louisville tells of a hotel episode in that city.

F. L. Willis, State Secretary of the Young Men's Christian Association for Alabama, may not have peeped over the transom at the two young ladies disrobing, but they assert that he did, and thereby hangs an interesting story, for it caused

Mr. Willis is a prominent young man in Y. M. C. A. circles at Birmingham.

Misses Arnett and Maples are pretty young members of the "Wang" Opera Company.

They arrived at their room from the theater at 11 o'clock at night.

Shortly after a male guest, Mr. Willis, arrived and was assigned to the room adjoining the young ladies' bed chamber.

Suddenly the bell rang violently and the announcement showed that the guests in 221 were badly in need of something.

A bellboy was dispatched with all haste to the scene.

He returned in a few minutes with both young ladies pale and trembling with excitement.

"There is a nasty, stinking, mean woman in the room next to us, and we had started to disrobe when suddenly I heard a peculiar noise," said the young ladies.

"I rushed to the door to see what it was, and I saw the face of a man peering in through the window. I said 'go away,' you nasty, mean fellow, but he wouldn't move, and then I threw my shoe at him.

"But he wouldn't go away. Then I rang the bell, and some one did not come right away, so we put on our shoes and came down. We could not undress in the dark."

The clerk assured them that he would protect them at the cost of his life.

He led them back to their room and knocked upon the door of 222.

There was no response, and he knocked again.

Then a sleepy voice asked, "Who's there?"

"Come to the door immediately. I am the clerk, and want to see you."

He came, after a minute, and opened the door.

He was clad only in his nightshirt.

Rubbing his eyes, he slowly and sleepily said: "What do you want to wake a man up at this time of night?"

The Republican majority in Pennsylvania is now wobbling around the 175,000 mark. Hold on there, boys; the first thing you know it will surprise the Editor of *The Bulletin*.

Well, Br'er MARSH is a Fill-osopher, to say the least of it. He says the result in Pennsylvania "was no surprise at all." That's right, Brother; there's nothing surprising in what you say.

Reprisers has been made to the fact that Mr. Graw only a few years ago advocated the abolition of the Tariff on coal, arguing that it would prove of great benefit to this country. His election must be taken as an endorsement of his views on this subject.—*Bulletin*.

The only "reference" to this "fact" that we have seen anywhere is made by *The Bulletin*, and it is so unreliable politically that the proof is called for. If Mr. Graw ever advocated free coal none of his friends ever heard of it.

PREVIOUS to the Pennsylvanian election Republican leaders said they would be satisfied if they could show up 100,000 votes to the good, while the Democratic leaders, who made an active campaign, were confident that the Republican plurality could be kept below \$0,000, and Democratic State Chairman WRIGHT was even rash enough to say on Monday that the Republicans would be lucky if they had 65,000. And yet Brother Marsh was better posted than the Democratic Chairman, for he is not "surprised" at the result.

PREPARATORY.

St. Louis Globe-Democrat.—Lent may be defined in a practical sense as a matter of getting used to Democratic rule.

STRAPPED.

Philadelphia Press.—Advises from Illinois that ex-Queen Lil is in that picturesque and bizarre financial condition known as "on her uppers."

TRYING TO MAKE BLACK WHITE.

Philadelphia Press.—Cleveland and Gresham don't look a bit better for that neat job for calculating the House did on them.

LAW IN MASSACHUSETTS.

New York Sun.—Henry W. Paine, a prominent member of the Boston Bar, who died was about twenty years ago, leaves a valuable collection of dry and pugnacious wit. One of the best of the many stories about him is that of the Harvard student, who met him in a Cambridge horse car reading a volume of the Massachusetts Reports. "Why, Mr. Paine," said the young man, "I am surprised to find that you should find it necessary to read law in a horse car." "I am not reading law," responded Mr. Paine; "I am reading the decisions of the Supreme Judicial Court of Massachusetts."

THE PRESIDENT'S DULPLICITY.

New York Sun.—We repeat that, if at a late date, as December 25, Minister Willis demands the abdication of the Hawaiian Government, a proceeding tantamount to an act of war, we must infer that, during the twenty-one days following the reassembling of Congress, Mr. Cleveland deliberately refrained from recalling his instructions to his envoy, in the dishonest hope that they might be executed during the interval. Should the reports from Honolulu prove to be founded on fact, as now appears probable, the theory that Mr. Cleveland's conduct in the Hawaiian business has been due to ignorance and wrongheadedness will have to be abandoned, and the people will have to fall back on the assumption that he is guilty of deception and treachery toward his subordinate branch of the Government.

A DEMOCRATIC OPINION.

Chicago Times (Dem.).—It is a contemptible record of party malice and spite which the Administration in Washington is making for itself.

TWO PRESIDENTS CONTRACTED.

New York Tribune.—The provisional Government which has saved the Hawaiian island's wisely and honorably for all time exercises complete authority and controls their destiny. The American people must derive from a knowledge of all that has occurred there increased admiration and respect for the enlightened and patriotic men who have done their whole duty without fear or hesitation. They deserve their indignation and contempt for an American President whose fantastic designs have been made doubly odious by the means which he has employed to execute them.

ON THE GOOD TIMES.

The Cincinnati Commercial Gazette.—The army of unemployed in this country is very large. In the midst of plenty there is want. This is all due to the incompetency of Congress, and this Congress is due to the mistakes of the people in 1892. There would not be a repetition of these blunders in 1894. Under existing circumstances, therefore, why not defer action on the so-called Wilson tariff bill. Unmistakably this measure is in opposition to public sentiment. There may be differences in the House of Representatives as regards schedules, but if Congress should respond to public sentiment, the whole matter would be referred to the people, which, under our system, is the source of all political power. That petition sent up from the workingmen of Cincinnati against the Wilson Bill is a most formidable document. The Congress which shall disregard these petitions is unmindful of its own position, and the ways that may seem right to it are the ways of political death.

MORE BONDS.

Expenses Exceeding the Income
Several Millions Weekly.

In Order to Make Up the Deficiency
Another Issue Is Needed.

The Tariff Bill Will Probably Not Become
a Law Before July, and Within Three
Months the Money on the Reserve
Fund Will Be Going On.

WASHINGTON, Feb. 23.—If the tariff bill does not go into law before June—and there are very few well-informed men in congress who believe that it will—some new before July, another bond issue is certain. The expenses are exceeding the income by some millions per week; and if Secretary Carlisle carries out his announced intention of paying Uncle Sam's bill, it will be necessary to another bond issue inside of two months.

When the money from the sales of the four per cent issue of the 1st inst. began to arrive at the treasury department there really existed a deficit of over \$40,000,000. The \$100,000,000 of gold which the treasury department had at hand came down into the seventy odd million point, and was fast reaching sixty millions. There were current bills of the treasury department overdue to the amount of about \$20,000,000. It will thus be seen that with a deficit of about \$40,000,000 and uses of about three millions per week, the \$88,000,000 or \$59,000,000 derived from the sale of the \$50,000,000 of four per cent will very soon be eaten up, after the \$100,000,000 of gold reserve is made intact and the overdue bills of Uncle Sam paid. It has been suggested without any foundation that we will be again going down into the reserve and permitting current bills to lie upon Secretary Carlisle's table unpaid.

When it was proposed to issue bonds the announcement was made by Secretary Carlisle and the administration in general that the loans were solely for the purpose of keeping up the gold reserve, which is a guarantee for the outstanding greenbacks and the nucleus of the government's credit. This was carried so far as to demand gold certificates for all the greenbacks, and the real object in selling bonds was to get money with which to meet the current demands of the government and pay a lot of old bills. Every day gold, gold certificates and legal tenders are being paid over the counters of sub-treasuries to take up treasury warrants.

CONGRESS HALL

The Spot in Which the Old Congress Met
1776 to 1783 to Be Marked by a Tablet.

BALTIMORE, Feb. 23.—The spot in which the old congress met in 1776 was marked Thursday by the planting of a bronze tablet. The tablet's extreme dimensions are 53; by 18; by 3 feet high. Its center is a flat plate surrounded by an ornamental border. The plate is 3 feet 10 inches wide by 3 feet high, and contains in relief a picture of old congress hall. The pictures takes up a third of the space of the tablet. Below the tablet is inscribed:

"Here Stood The House of Jacob Fife, Known Afterward As Congress Hall, In Which The Continental Congress Met December 20, 1778, And On December 27, 1779, Conferred On Gen. Washington Extraordinary Powers For The Execution of War."

A second inscription is as follows:

"Erected February 22, 1894, by the Society of the Sons of the Revolution."

Above the plate containing the picture and inscription is an ornamental corner piece with a scroll and a shield in each corner and a shield with supporting scroll work in the middle. The sides of the tablet are rounded and about eight inches deep. On one of these rounded corners are the names of seven of the original states—Massachusetts, Pennsylvania, New Hampshire, Delaware, New York, Rhode Island and Connecticut—with a star between each. The other six—New Hampshire, New Jersey, Virginia, North Carolina, South Carolina and Georgia—are on the other side.

Woman's Native Town Upholds Him.

TORONTO, Ont., Feb. 23.—The news of Ernestina Wiman's arrest was received in the city and expressions of regret were expressed on all sides. Everyone who knows Mr. Wiman has a good word to say of him. He was regarded as a man of great enterprise and was never suspected of any wrongdoing. People here are confident that any difficulty between him and Mr. Due will be satisfactorily adjusted. He is a native of this city.

Alabama Town Under Water.

PANAMA, Fla., Feb. 23.—The steady rains during the past ten days have caused a freshet in all the streams in this section. News has just been received that the town of Geneva, Ala., and White Plains, on the north of the Apalachicola line, is more than half submerged in water and the river is still rising. The flood at that point is said to be the greatest since the memorable flood in 1885.

Masstabliot Sentenced.

PITTSBURGH, Pa., Feb. 23.—The Mansfield coal region rioters were sentenced Thursday by Judge Ewing. Of the thirty-four persons tried, twenty-one were sentenced to the penitentiary for terms ranging from fifteen months to two years and six months, and twenty-eight were sent to the work house for terms running from two months to one year.

Emperor's Birthday in New York.

New York, Feb. 23.—Washington's birthday was celebrated in the usual manner. There was a fine parade of militia, and Thursday night various societies indulged in banquets and other modes of celebration. About the number of business houses were closed, and the streets were filled with throngs of holiday celebrators.

AURORA BOREALIS.

The Phenomenon a Very Brilliant One
Thursday Night.

CINCINNATI, Feb. 23.—"Where is the big fire?" and "What is it?" questions were heard on the sidewalks and in the streets of Oxford. Thursday night, as people on the streets gazed to the north and beheld the darkness of the night dissolved by a brilliant crimson arch which began away off in the east and ended at Price Hill. Conjecture was rife, and the telephone was used, as well as telegraph, with particular interest. The curious next appeal to the fire department, but were told that no alarm had been turned in.

At 9:30 o'clock the entire north became as crimson as though lighted by a great fire, while it was impossible to see the sky above. The yellow would cause one to believe that the sun had but recently set; yet it was not for the fact that the illumination was in the north.

Gradually it moved westward, further and farther until at last it faded away over the western hills. The phenomenon, for such it was, was a very brilliant one, and of the kind which is witnessed during different seasons of each year—the aurora borealis.

SAW A CROSS IN THE SKY.

A Blazing Figure Which the Weather
Shraps Explains Away.

OIL CITY, Pa., Feb. 23.—At 10 o'clock Thursday night, thousands of people in this city and vicinity were gazing at a marvelous spectacle in the heavens. High toward the zenith in the east, a long white streak, indescribably brilliant, blazing in the sky, while the moon, encircled by a similar light, made a beautiful centerpiece. At each corner of the cross appeared to be huge balls of living fire of all the colors of the rainbow. The phenomenon lasted for nearly half an hour. The meteorological sharp silence the superlatives by saying it was caused by a peculiar condition of the atmosphere, and the presence of a thin cloud that formed a sort of lens, causing a refraction of the rays of light from the moon.

DESPERATE BURGLARS.

They Seriously Injure Three Men, But
Find the Gold in Their Safe.

S. LOUIS, Feb. 23.—Four desperado masked burglars made a brutal and ineffectual attempt at 1 o'clock Thursday morning to rifle the safe of the Hazel Milling Co., on Broadway, near the Louisville & Nashville railroad bridge. The robbers, led by a negro freedman, Charles Maynard, a night watchman, and Fred Scheib, were beaten into insensibility, bound and gagged, and the safe doors blown open with powder. The work was evidently that of amateurs, driven to desperation by the pecuniarity of the times. The safe contained nothing of value, and the robbers failed to secure a dollar for their trouble.

SWINDLER LE ROI Harris.

BUFFALO, N. Y., Feb. 23.—Judge Coxey, sitting at Utica, has granted an order for the removal of Le Roy Harris, the postal money order swindler, to the State Penitentiary for 15 years. His center is a flat plate surrounded by an ornamental border. The plate is 3 feet 10 inches wide by 3 feet high, and contains in relief a picture of old congress hall. The pictures takes up a third of the space of the tablet. Below the tablet is inscribed:

"Kilane Volcano Active.

SAN FRANCISCO, Feb. 23.—The latest report on Kilane volcano shows great increase of activity. The lava has entered upon a new stage of action, having at last, after three years work, entirely filled the inner crater and overtopped the main floor. It is now overflowing the main door of Kilane in copious floods of fire, and has destroyed the huts fitted up on the bank and obliterated a half mile of trail.

After the singing of patriotic selections, Gov. McKinley spoke for five minutes. He said: "I am deeply grieved with that much-told-of and much-written-of alleged incident in the life of Washington, on the half humorous, half-serious vein, especially dwelling on the moral sought to be conveyed, regarding the necessity of absolute truth and veracity in all the relations of truth and veracity in all the relations of truth.

Kilane Volcano Active.

WALPARAISO, Ind., Feb. 23.—Thursday in the circuit court, Hannah Brown began proceedings for divorce from Gen. George C. Brown, a well to do farmer of this place. The trial began last November. The complaint charges him with inhuman treatment, alleging that at times he drove her from the house, compelled her to sleep in the barn, and put drugs in her cup with a purpose of destroying life. The defendant is 93, and the plaintiff 29 years old, and the case is for summary.

Mooshamer in Kilane.

PARKEBOROUGH, W. Va., Feb. 23.—United States deputy marshals are expected here Friday with Sam Canfield, ex-convict, and "Bono" Humphreys, whom they arrested, after a desperate struggle, on the top of Cheat mountain, near Terra Alta, Wednesday night, and who had been held in custody at the jail since Saturday. The still was being worked to its utmost capacity. A large quantity of mash was on hand. The prisoners are leaders of the most notorious moonshiners gang in the state.

Whipped by White Caps.

CHARLESTON, W. Va., Feb. 23.—D. F. Williams, a white farmer, was severely whipped by white caps about ten miles from this city Wednesday night. The men came to Charleston Thursday and swore out warrants for their assailants. The victims had given information to the government about counterfeiting in their neighborhood.

Mrs. Adelia S. Stevens, wife of the vice president, presided.

Arboral Display at Louisville.

Louisville, Ky., Feb. 23.—A brilliant auroral display was visible in Louisville Thursday night, lasting from 9:20 to 10 o'clock. One fire company made a run, thinking the light was from a fire, but nearly all the companies in the city turned out to be prepared for a general alarm.

CHICAGO, Feb. 23.—As a social function the banquet at the Union League club that followed the patriotic exercises in the Auditorium eclipsed its predecessors in brilliancy.

Covers were laid for 500 guests in the main banqueting chamber, which was decorated with flags of all nations, and through a profusion of growing flowers, palms, plants and exotic, conventional and floral decorations.

Guests sat down at 7 o'clock, and for the two hours following strict attention was given to the discussion of the menu.

With the advent of the coffee, President W. M. Rappaport for order, and the toast was given in honor of the president.

GOLD, Feb. 23.—At 10 o'clock Thursday night, thousands of people in this city and vicinity were gazing at a marvelous spectacle in the heavens. THE SALVATIONISTS

Propose a Big Colonization Scheme in
Mexico.

CITY OF MEXICO, Feb. 23.—The salvation army of the United States and England has large colonization schemes brewing for Mexico. A syndicate of Englishmen, headed by a man of the same name as the president, has concluded the lease of two hundred thousand acres of land in the state of Chiapas, in southern Mexico.

John S. Wise, New York: "The due administration of justice is the firm pillar of good government."

Associate Justice David J. Brewer, Washington: "The Chinese are a dangerous race."

Bishop Charles H. Fowler, Minnesota: "The name of America must always exalt the just pride of patriotism."

William J. Bryan, Nebraska: "Patriotism."

Every public school in the city participated Thursday evening in the patriotic exercises commemorative of George Washington. In some instances several schools combined and the exercises were held in one school building, but in others the exercises were held separately.

The celebrations were given under the direction of the Union League club, which, in many instances, furnished the orators for the occasion, sending its members to address the pupils on the subject of the revolution.

The Union league also furnished a list of patriotic musical selections, and from the same source each pupil was provided with a small American flag. The exercises were a complete success.

John McKinley was the guest of University of Chicago for a brief half hour Thursday morning. When the Ohio governor appeared, arm in arm with President W. R. Harper, it seemed as though Bedlam had broken loose.

Cheers and counter cheers, college yell and class yell and the piping voices of the band and orchestra joined in a grand ovation.

After the singing of patriotic selections, Gov. McKinley spoke for five minutes. He said: "I am deeply grieved with that much-told-of and much-written-of alleged incident in the life of Washington, on the half humorous, half-serious vein, especially dwelling on the purity and well-being shown in his conduct in contact with men and matrons, and that no church should allow any part of its building to be used for a Chinese sun-day school class in which young unmarried women act as teachers. The Chinese feel very sore over this action of their American brothers, and many of them say if they can not have young lady teachers they will refuse to be taught."

The Chinese feel very sore over this action of their American brothers, and many of them say if they can not have young lady teachers they will refuse to be taught."

After the singing of patriotic selections, Gov. McKinley spoke for five minutes. He said: "I am deeply grieved with that much-told-of and much-written-of alleged incident in the life of Washington, on the half humorous, half-serious vein, especially dwelling on the purity and well-being shown in his conduct in contact with men and matrons, and that no church should allow any part of its building to be used for a Chinese sun-day school class in which young unmarried women act as teachers. The Chinese feel very sore over this action of their American brothers, and many of them say if they can not have young lady teachers they will refuse to be taught."

Pilots Suspended.

Pilots Will Agnew, the White Collar Linen packet Sheriff and Pilot Alex Sutter of the Bay Line steamer "Chester" have both been suspended by the U. S. Marine Inspectors for a period of fifteen days, as a result of the little collision had by those steamers at the Huntington wharf some weeks ago, in which the "Chester" came out badly damaged. Bad blood had existed between the boat's crews for some time past on account of the rivalry of the different lines, and the investigation developed the fact that neither apparently cared much about avoiding the hitch.

Marshall Matters.

Ironton Daily Republican—William Wolf, who was Secretary and Treasurer of the Springfield Baseball Association of the Ohio League last season, writes to Frank Mercer here that he would like to take the management of one of the teams taken off for the proposed tri-state league. He expresses his willingness and ability to organize and manage a winning team and make it pay, and says he has material for a good team in view.

The league business is still being agitated, but matters are moving slowly, though it is expected that when spring approaches a little nearer the enthusiasm will warm up and make the league a go.

A RIVER WAR.

The Boys Fighting Back at Their Big Competitors.

Pomeroy Tribune.—For several years past there has been a river war between the Bay Line and its larger rival, the Cincinnati, Big Sandy and Pomeroy Packet Line. While it has been somewhat disastrous to the river men, it has proven a good thing to shippers, as freight rates have been cut in two and then again. It is now the Bay Line's turn to hold its own. Last year the C. and O. and White Collar Line pooled issues and placed the "Sherley" in the Kanawha trade in opposition to the Bay Line "Stanley," but after one season's work the "Sherley" was withdrawn. Now the White Collar Line and the Pittsburgh Company have combined, and the war is on again.

The Bay Brothers are fighters and propose to stay with the big combine. They are now negotiating for the fast and elegant steamer "Sunshine," which has several times given the White Collar Line a hard tussle. If the "Sunshine" is secured she will be placed in the Pittsburgh trade, thus carrying the war into Africa. The Boys are also preparing to build a fine and fast sidewheeler steamer, which will be ready for service in the fall.

THE earnings of the Chesapeake and Ohio for the second week of February was \$150,990.76, a decrease of \$40,956.28 as compared with the earnings for the corresponding week of last year.
